Subject: HPNS Building Remediation Goals Discussion with Dr. H
Attachments: 2021-02-05_TPsHunnicuttt.docx

I don't expect Dr. H will join the Teams meeting, so I plan to just call-in. Attached are some TPs I put together. I expect it's just us from EPA. I'm free if you want to call me to connect before 1 pm (I need to do a computer reboot).

Thank you, Dr. Hunnicutt. I'll send a meeting invitation with a call-in number for Friday at 1 pm.

Have a great week.

Yolanda

Good Evening Yolanda,
Friday, February 5th, at 1 p.m. works for me!

Thank you so much for the additional information and for contacting me! I look forward to your updates and our subsequent conversation! Take care!
Dr. Veronica Hunnicutt

Subject: HPNS Building Remediation Goals

Dr. Hunnicutt,

We know you have been closely following EPA's oversight of the Navy's radiological retesting at the Hunters Point Naval Shipyard site. I suggest we schedule a time next week to update you on the latest conversations between EPA and the Navy regarding a protective remedy for the potentially radiologically-impacted buildings onsite. This is also an opportunity to discuss the upcoming HPS CAC Environmental and Reuse Subcommittee meeting on February 22, 2021.

Please let us know if any of these times work for you next week:

- Wednesday, February 3 at 9 am
- Thursday, February 4 at 11 am
- Friday, February 5 at 1 pm

I wanted to ensure you were aware of this December 22, 2020 letter to the Navy sent by EPA Region 9's Superfund and Emergency Management Director. The letter describes our response to a letter from the Navy in mid-December regarding our August 20, 2020 letter about the Navy's evaluation of the radiological remediation goals (or cleanup levels) for current, onsite buildings. EPA remains dedicated to move this conversation forward, working with the Navy to come to a solution.
